WHAT ARE MY WORKERS’ COMPENSATION OPTIONS?
A federal employee who is injured while on travel for work would have full coverage of the Federal Employees’ Compensation Act (FECA) for related medical treatment and for wage loss or disability related to that condition. The injured employee will need to report their injury immediately to Occupational Medical Services (OMS) and their supervisor. If employee is unable to visit OMS, the employee (or individual on his/her behalf) should call OMS at 301-496-4411. OMS will provide instructions to access the Employees’ Compensation Operations & Management Portal (ECOMP) depending on the type of injury which could be a CA-1 (Traumatic injury) or CA-2 (Occupational Disease).

To establish coverage as a result of your injury or illness, you must submit a medical report from a qualified physician indicating what your injury is and how it relates to your employment.
