LEARNING MANAGEMENT SYSTEM (LMS)

ADDING A LEARNER TO AN OFFERING ROSTER

This QRG will guide a Learning Administrator through the task of registering a Learner for a course in the LMS by adding the learner directly to an offering roster.

NOTE: Learners who are added directly to the roster follow the same registration rules as those when creating a new order for a learner (i.e. Manager Approval Requirements, Open Seat Availability, Waitlist Priority, etc.) and all corresponding email notifications in effect for new registrations apply to this process as well.

1. After logging into the LMS, select the Admin icon.

2. Click the Offerings link in the left navigation menu.
3. Enter search criteria for an offering then click the Search button.
4. In the Search results, click on the Course Title link.
