Understanding the Recruitment Actions Report

The Recruitment Actions Report provides real-time data and metrics on all recruitment and related appointment actions processed by the Office of Human Resources. WiTS uses the information entered in the data fields on the WiTS Recruitment and Appointment forms to track status, generate counts, and calculate metrics related to recruitment and related appointment activity in the organization/program areas you service. You can use this report to update your organization on the status/location of pending recruitment actions as a tool for discussion points in IC/OHR meetings, etc.

The Recruitment Actions Report offers several views: Overall View, Vacancy Announcement Information View, Hiring Decision Information View, Certificate Information View, and Selection Information View. The Overall View displays information regarding the entire life cycle of the recruitment or related appointment action. The other views offer specific information regarding the vacancy announcement, hiring decision(s), certificate(s), and selection(s) associated with a recruitment action.
